

Sennovate Infotech Solutions founded in 2007 with an objective to bring high end and high quality technology services to companies of any size.

Sennovate offers services and solutions in the area of Cloud Enterprise, Mobile Application Development, Technology Outsourcing, Staffing and Career Education.

We are the leading Live IT Training provider in this region. We have the Infrastructure to deliver quality and reliable Real time training to Corporate, Educational Institutions, Job seekers and students at an affordable price.

### **TRAINING PROFILE:**

Our state of the art knowledge transfer programs is delivered through Sennovate Infotech Solutions (Training Division) located in Salem, South India, which is our Global Technology Center. This is primarily for individuals who want to develop their career in information infrastructure management. Our expert guided training helps them not only to gain academic knowledge but also provides hands on expertise with simulation of real time scenarios. Our experts share their real world experiences with students in the class, which had proved to be great source of learning.

#### **Task**

To impart effective and result-oriented training to people having the required skills and attributes, that will help them become successful IT database professionals.

#### **We Database experts**

Offering Real-World Solutions from Expert Certified Instructors: Our instructors work full-time that enables them to test and use various technologies which they teach to our clients. Their expertise in solving the technical problems and sharing of their real-world experience and practical solutions helps our clients get practically trained on the relevant issues.

#### **Our Hands-on Exercises Are Designed and Developed by experts for Developing Practical Skills:**

**Active Training Ensuring Better Learning Curve:** Our courses are so designed that allows our clients in learning and conducting practical at the same time. The briefs given by our instructors are followed by hands-on exercises, helping clients in mastering the new skills right away.

At Sennovate, training is not what we offer as a product, but is an enabler for making our clients successful.

In essence, our customers pay us for becoming more successful at what they do, rather than the training, which they receive, from us.
